

**Description / Name of the special-purpose machine**

Hydraulic unit emergency operation BW

Function / task

Self-sufficient supply of external consumers, with a hydraulic pressure of up to 280 bar.

Technical features

A diesel engine in silent version enables the emergency operation of an external consumer with hydraulic tank and 24V on-board power supply. The engine can be started via crank handle or electric motor. The mobile unit can be lifted by crane operation and moved by fork lift.

Technical data

Flow rate	55 l / min
Engine power	8.9 KW
Hydraulic pressure	max. 280 bar

Customer

Liebherr factory in Ehingen

Realisation period / year

From June 2018

Ident-No.
5064868

Month/Year
10 / 2018
