

Description / name of special machine

Transport console - quick-change

Function / job

Transport of machine furnaces with liquid aluminum

Special features

Machine furnaces are transported on a stacking truck without requiring additional personnel. This transport procedure saves a transfusing operation thereby considerably improving the quality of the aluminum.

Technical data

Load-carrying capacity	2.0 t
Locking system	hydraulic
Adaptation	0.3 – 1 m/sec.
Application	3-shift operation

Customer

BBS Kraftfahrzeugtechnik AG

Realization period / year

February 1999

Ident No.

502 2 400 DB

Month / year

11/99
