

Description / name of special machine

Single grab for short pin bearing

Function / job

Grab for handling of aluminium round stock in automatic bearing

Special features

Special self-designed hydraulic units are used to meet specific requirements regarding minimum overall width and minimise interfering contours.

Technical data

Carrying capacity max.	300 kg
Closing force	2 x 15 kN
Closing time approx.	9 sec.
Hydraulic unit	5 l/min, 250 bar

Customer

Unterschütz Sondermaschinenbau, Walbeck

Realization period / year

May 2004

Ident No.
502 9 740

Month / year
05/04
