

**Description / name of special machine**

Cross beam for tubes

Function / job

Handling of red-hot steel tubes.

Special features

Cross beam for the transport of red-hot steel tubes up to 1000 mm in diameter.
To avoid deformation during transport, the steel tube is turned around permanently.
The cross beam may be adjusted for different tube lengths via slides

Technical data

Carrying capacity max.:	3500 kg
Dead weight:	6400 kg
Length approx:	10600 mm
Height approx:	3300 mm

Customer

R. Stahl Födertechnik
Buderus

Realization period / year

November 2004

Ident No.
503 0 936 DB

Month / year
12/2004
