

Description / name of special machine

Butt-joining machine

Function / job

Milling machine for butt-joining of plastic slabs and hard paper honeycombs

Special features

Milling spindle via frequency converter with variable speeds; extraction system by means of contact surface „underfloor”; protective cover from Plexiglas, work position of milling cutter individually adjustable

Technical data

Milling cutter speed:	6000 to 15000 rpm
Diameter max.:	100 mm
Slab thickness	80 mm
Drives:	electrical, frequency converter

Customer

Airbus Deutschland GmbH

Realization period / year

May 2005

Ident No.
503 1 243 DB

Month / year
05/2005
