

### Description / name of special machine

Calibration unit for sun simulation in climatic chambers

### Function / job

Traversing of transducers.

### Special features

Carrying beam traverses horizontally via an electric drive. Manual height adjustment.

### Technical data

Travel (trolley)	6500 mm ( x-axis)
Measuring fields per running path	6
Adjusting range (pyranometer)	1000 -1700 mm

### Customer

Mitronic BMW

### Realization period / year

from November 2006

Ident No.  
5034671

Month / year  
12/06
