

Description / Name of special machine

Hydraulic power unit with 2 adjusting cylinders

Function / Job

The hydraulic unit serves to power two hydraulic cylinders which are used to adjust the horizontal position of a load.

Special features

The hydraulic power unit comes standard in silent version, mounted on a trolley. The Diesel engine allows an independent operation of the power unit. Every adjusting cylinder has two hoses with a length of 50 m each, which can be wound up and stored on the sides of the hydraulic power unit.

Technical data

Dimensions (power unit)	930 x 890 x 1980 mm (W x H x L)
Noise emission	max. 101 dB
Hydraulic oil pressure	250 bar
Hydraulic flow rate	8.3 l/min.
Weight, total	780 kg

Customer

GHHL Saudi Arabia

Realization period / Year

From January 2012

Ident No.
504 4 706
